

Evaluate8Trading

Date 19, March 19, 2020

Special Announcement

Evaluate8Trading is working with our funding network and broker partners to better navigate during the current market restrictions. At this time **ALL** available margin accounts have been suspended due to the market volatility.

Previous funding accounts will not be affected only new live money accounts. As of this date new funded accounts may be delayed in opening and / or restricted to reduced buying power and instruments.

We are working individually with each candidate to support their trading programs and request only patience as we are working with our brokerage providers to offer you the optimal service during this market event.

Thank you for your understanding.

Sincerely,

Max Rybinski
